

MEAS DISPOSABLE SENSOR PLATFORM

Photo Optic Sensor

- Comfortable
- Lightweight
- Repositionable
- Disposable SpO₂ Sensors

Features

- Butterfly or Strip Wrap Designs
- Microfoam or Breathable Cloth Medical Tapes
- Lightweight Ergonomic Design
- Easy Repositioning
- Latex Free
- Cost Competitive
- Compatible with some Nellcor® monitors

Applications

- Pulse Oximetry

The MEAS Disposable Sensor Platform offers a single-use, disposable sensor solution for prolonged monitoring scenarios or environments in which cross-contamination is a concern. The sensors are latex free and biocompatibility tested to meet industry standards. We offer both adult and neonatal sizes. Two choices of adhesive materials (cloth or microfoam tape) are available for each of the butterfly or strip wrap designs.
